

Asheville City Schools is using Classlink in order to facilitate an easier log in for our students to the apps and websites to which they will need frequent access. Classlink is available on Chromebooks or iPads, regardless of whether it is a school-issued device or your own. Here are some steps to get started:

For School issued iPads, tablets, or mobile devices

1. **Click on the app**, you can choose your Asheville City Schools from the dropdown list and proceed to the login screen.

2. **After you've selected Asheville City Schools, your student can log in:**

If your student is in K-3rd grade, they can click on 'Sign in with quick card'. Using their QR code provided at device distribution, they can scan in rather than type their credentials. **If a quick card is lost OR the camera** does not work, they can still type in their username and password and click 'sign in'.

1. Your student's is now in their ACS Launchpad!

If you student accidentally closes out this window, you can always come back to it by going to:

<https://launchpad.classlink.com/asheville>

2. Some links in Classlink will automatically log your student in, but others may require a CODE or PASSWORD.

- a. This will only be needed one time and then Classlink will remember their log in.
- b. Other apps may be included throughout the year and your teacher will provide log in information, if necessary

For a PERSONAL CHROMEBOOK

1. Once you've opened your device, click on 'Add person' at the bottom.

Sign in your student using their ACS Google account by typing: username@acsgmail.net and their ACS password

Students can log out of this account to access their personal account, if necessary. Your Chromebook will remember this user and only a password will need to be entered the next time.

2. The ACS Internet Filter, Zscaler will be prompted the first time you log in.

Log in with username@acsgmail.net and their ACS password

A screenshot of the Asheville City Schools sign-in page. The page has a light blue header with the text 'Asheville City Schools'. Below the header is a white box with a green border containing the sign-in form. The form has a green 'Sign In' heading with a person icon. Below the heading is a message: 'To keep you safe from internet threats, please sign in to your company's security service.' There is a 'User Name' label above a text input field containing the email address 'username@acsgmail.net'. At the bottom of the form is a blue 'Sign In' button.

3. Your student's homepage will now automatically load to their ACS Launchpad!

If you student accidentally closes out this window, you can always come back to it by going to:
